Checkpoint 6 feedback review #3 - Maikel 28-05-2025

Coffie, Angelina E.L.A. 10 days ago

Today I had the 3rd assessment review. Overall I have to describe my process more, how it affected the project and what my next steps are going to be. For LO2 I have to commit more frequently and give better commit descriptions.

> Describe what goes well according to your teacher, what you should pay more attention to and what is your next step to

Checkpoint 5 SC talk 17-04-2025

Coffie, Angelina E.L.A. 2 months ago

Today I had my semester coach talk. I was asked if the feedback comments of the 2nd assessment were clear to me, they were. And we talked about my choice of the specialisation for next semester and Petra showed and explained what to expect at Smart Mobile.

Checkpoint 4 Portfolio review Petra / Jan 10-04-2025

Coffie, Angelina E.L.A. 2 months ago

For the next time I have to check if the links work for everyone, before submitting the reading guide.

With every evidence I have to give more context to show the process of my work with the iterations.

Checkpoint 3 POV Statement Feedback -Kadian 09-04-2025 🙂

Coffie, Angelina E.L.A. 2 months ago

Today I asked feedback for my POV statement and HMW questions.

POV
Instead of refugee residents in the Netherlands, change it to refugee residing in the Netherlands. And from learning more Dutch I can change it to increasing the proficiency in the language.

HMW questions
For the HMW questions it is better to make the questions less specific and more wider, so it's better for the ideation and we then can use the lotus bloom.

Checkpoint 2 NodeJS feedback Amer 09-04-2025

🙂

Coffie, Angelina E.L.A. 2 months ago

Today, I attended Amer's workshop, which was an introduction to Node.js. During this lesson, I installed it on my laptop for the first time. To access the randomised jokes, I had to follow a few steps.

I kept getting an error. I got feedback that you always have to check which directory you are in within the terminal. You need to go all the way to the root, and then you can follow all the steps.

Cd desktop > cd node > cd joke. In the end, I did manage to get to the jokes.

Checkpoint 1 Formative Assessment 1 - Jan & Petra 13-03-2025

Coffie, Angelina E.L.A. 3 months ago

Today I had the first formative assessment and got some feedback for the portfolio and reading guide.

- For the next time use 1 page for each learning outcome and no pictures but link to the evidence.
- At each evidence write why, what, how and conclusion to show what it meant for the project.
- If I want to do something with animations I could also use it for learning outcome 2.
- For your portfolio think about the user. You can usertest your portfolio and use it for the learning outcomes.
