

POV

POV

The refugees need to have a tool that will help them learn the Dutch faster

The refugees need to have more possibilities to learning the language

The refugees need to learn Dutch, because they need Dutch to help them integrate in Dutch society.

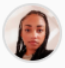

User	Needs	Insights
Refugee residents in the Netherlands	Learn more Dutch	They only get one hour Dutch lesson in every week taught by volunteers. By knowing Dutch they are able to go to work.
Needs to		Because

POV:

A refugee resident in the Netherlands needs more acces to learning the Dutch language in a week, because this will improve the development of learning Dutch.

I got feedback of Kadian on the POV: Instead of refugee residents in the Netherlands, change it to refugee residing in the Netherlands. And from learning more Dutch I can change it to increasing the proficiency in the language.

Checkpoint 3 POV Statement Feedback -Kadian 09-04-2025

Coffie, Angelina E.L.A. 2 months ago

Today I asked feedback for my POV statement and HMW questions.

POV
Instead of refugee residents in the Netherlands, change it to refugee residing in the Netherlands. And from learning more Dutch I can change it to increasing the proficiency in the language.

HMW questions
For the HMW questions it is better to make the questions less specific and more wider, so it's better for the ideation and we then can use the lotus bloom.

New POV: A refugee residing in The Netherlands needs more accessible ways of learning the Dutch language to increase their proficiency in the language because limited language proficiency limits their integration and stifles their chances of obtaining employment.
